

ROBERT PETERSON

IT SUPPORT & INFRASTRUCTURE SPECIALIST

Independence, MO | robertpeterson.kc@outlook.com | 816-273-8148 | linkedin.com/in/robert-peterson-kc | RockSolidLabs.net

PROFESSIONAL SUMMARY //

IT support and infrastructure specialist with hands-on experience supporting multi-site business environments, Windows Server infrastructure, identity and access, networking, endpoint support, backup and disaster recovery, and business-critical application systems. Combines MSP troubleshooting experience with current infrastructure work supporting dental practices, including server replacements, storage and RAID configuration, data migration and recovery, and deployment automation. Builds and operates a production-style homelab spanning virtualization, storage, Linux, VPN, Docker, monitoring, and self-hosted web infrastructure.

TECHNICAL EXPERTISE //

Windows 10/11 | Windows Server | Active Directory | Microsoft 365 | Entra ID | DNS | DHCP | TCP/IP | VPN/RDP | SMB/CIFS | UniFi | Endpoint & printer support | Server hardware | RAID & storage | Backup/restore | BitLocker | PowerShell | Proxmox VE | TrueNAS SCALE | Docker/Docker Compose | Linux/Ubuntu | WireGuard | Pi-hole | ConnectWise | NinjaOne/RMM | Technical documentation & SOPs

PROFESSIONAL EXPERIENCE //

IT Support Specialist (Help Desk Agent) | Goetze Dental

Kansas City Metro Area | Feb 2026 - Present

- Provide remote and on-site IT support for dental practices, troubleshooting Windows workstations, servers, printers, network connectivity, user access, peripherals, and business-critical clinical systems.
- Plan and support server replacements and infrastructure upgrades, including Windows Server environments, server hardware, RAID/storage configuration, backup readiness, application compatibility, and migration sequencing to reduce office downtime.
- Administer and troubleshoot Active Directory, DNS, DHCP, SMB file access, RDP, domain joins, secure-channel issues, permissions, time synchronization, and endpoint configuration.
- Support on-premises and cloud backup/data-protection workflows, validate restore paths, and assist with recovery or migration of practice data and imaging systems in environments requiring careful handling of PHI and security controls.
- Troubleshoot and migrate dental software and imaging platforms including Dentrrix, Dexis, DTX Studio, Romexis, XrayVision, VixWin, Eaglesoft, and related vendor-connected applications.
- Build and refine PowerShell-based deployment automation for workstation and server setup, including update/driver workflows, storage preparation, BitLocker handling, logging, checkpointing, and safe resume after reboot or failure.

IT Support Technician | Complete Technology Solutions

Kansas City Metro Area | Oct 2025 - Feb 2026

- Delivered Tier 1-2 remote and on-site support for approximately 50 SMB client environments in an MSP setting, balancing ticket priority, SLA expectations, documentation, and customer communication.
- Troubleshot Windows 10/11, Active Directory accounts and permissions, Microsoft 365, Outlook/Exchange, Teams, MFA, Entra ID joins, printers, mobile devices, peripherals, and common line-of-business applications.
- Diagnosed DNS, DHCP, LAN, Wi-Fi, and VPN connectivity issues, including FortiClient remote-access problems and endpoint communication failures.
- Performed workstation imaging/deployment, user onboarding, software and peripheral installation, inventory work, office moves/upgrades, and end-user training.
- Used ConnectWise and NinjaOne/RMM to document incidents, remediation steps, escalations, and resolution history across multiple client environments.

ROBERT PETERSON // IT SUPPORT & INFRASTRUCTURE

LEADERSHIP & TECHNOLOGY EXPERIENCE //

Experience Supervisor | Best Buy

Sep 2022 - Sep 2025

- Led high-volume customer-facing technology operations, coached employees, coordinated daily priorities, and owned escalated customer and technical issues through resolution.
- Trained and mentored staff on troubleshooting workflows, documentation, service standards, and communication while reinforcing consistent execution across the team.
- Provided hands-on troubleshooting for computers, mobile devices, networking equipment, smart-home systems, account access, and connected technology.

Consult & Design Supervisor | Best Buy

Aug 2019 - Sep 2022

- Advised customers on home networking, computing, smart-home, and connected technology solutions, translating technical requirements into practical designs and hardware recommendations.
- Coordinated installation and post-installation support across internal teams and service partners, troubleshooting configuration issues and managing customer expectations through completion.

SELECTED INFRASTRUCTURE & AUTOMATION PROJECTS //

Rock Solid Labs - OrangeBox - *Virtualization, storage, networking & self-hosted services*

- Built and maintain a Proxmox VE environment with Linux VMs and LXC containers supporting storage, networking, monitoring, media, automation, DNS filtering, and secure remote access.
- Operate TrueNAS SCALE centralized storage with SMB/CIFS shares, permissions, persistent mounts, storage migrations, and recovery troubleshooting integrated across Linux and Docker workloads.
- Implemented WireGuard, Pi-hole, Docker Compose services, dependency-aware networking, and live monitoring; troubleshoot cross-service, path, permission, and connectivity failures.

Rock Solid Labs - Port Arthur - *Application isolation & self-hosted portfolio platform*

- Built a second Proxmox host to isolate application and public-facing workloads from core homelab infrastructure, using dedicated Ubuntu Server VMs and Docker/Compose.
- Deployed this portfolio using Astro, Nginx, Docker, Git, and a sanitized read-only Uptime Kuma integration that surfaces live infrastructure health without exposing private management details.

Windows Deployment & Recovery Automation - *PowerShell*

- Develop PowerShell automation for standardized device/server deployment workflows incorporating environment validation, Windows Update, driver inventory, storage preparation, BitLocker/reboot handling, structured logging, and resumable state checkpoints.

CERTIFICATIONS & EDUCATION //

CompTIA Security+ ce | CompTIA | Issued Oct 2025 | Expires Oct 2028

Microsoft 365 Certified: Fundamentals (MS-900) | Microsoft | Issued Sep 2025

Cybersecurity Specialist - Network Support Badge | Centriq / Canvas Credentials | Issued Sep 2025

Cybersecurity Specialist - IT Service Desk Support Badge | Centriq / Canvas Credentials | Issued Aug 2025

Cybersecurity Specialist Program | Centriq's IT Career Program | Completed 2025
